

ORDINARY MEETING.

FRIDAY, APRIL 4TH, 1884.

HENRY HICKS, Esq., M.D., F.G.S., President, in the Chair.

It was decided that the following letter from Sir Richard Owen to the Secretary should be entered on the minutes :—

“ Sheen Lodge.

“ Richmond Park.

“ 24th February, 1884.

“ DEAR DR. FOULERTON,

“ Our friend Dr. Woodward has notified to me the most kind and unexpected intention of the ‘Geologists’ Association’ to present me with an ‘Address’ on my resignation of official work at the Museum of Natural History.

“ Of the recognitions of past services with which I have been honoured there are none that I shall cherish in more grateful memory than such expression of approval from much-esteemed fellow-labourers in a favourite field of research.

“ I have noted down Saturday, 15th March, as engaged to be at the Museum in Cromwell Road, which I learn may be the place most convenient to the Association.

“ Believe me,

“ dear Dr. Foulerton, to be

“ faithfully yours,

“ RICHARD OWEN.”

The list of donations to the library since the last meeting was read, and the thanks of the Association were accorded to the donors.

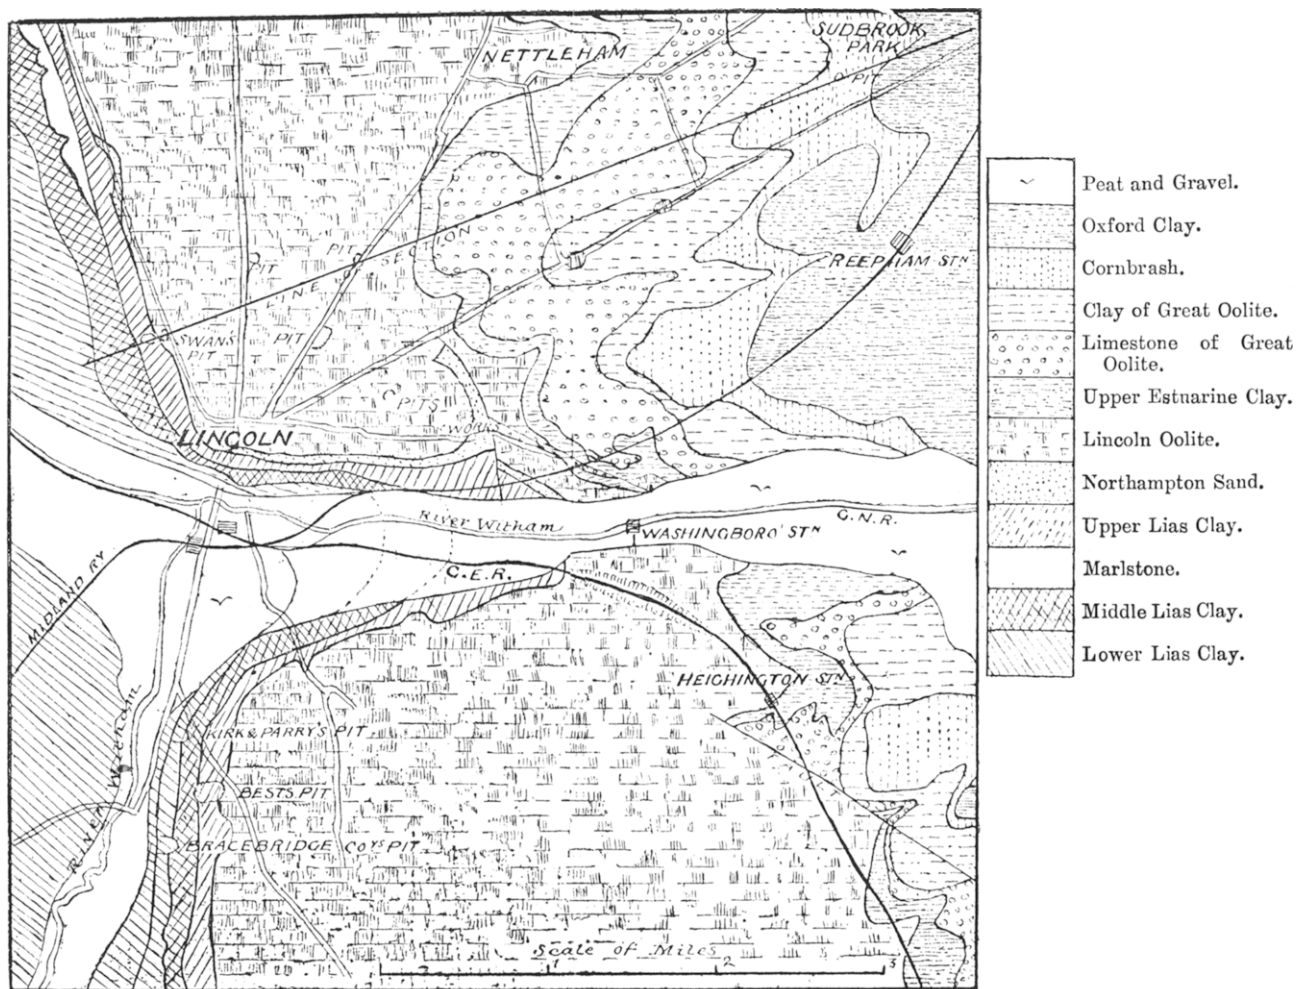

The following were elected members of the Association :—

James Braik; S. J. Hawkins; John Knox Laughton, R.N., M.A.; Joseph Macpherson; Dr. M. Poignard.

The following paper was then read :—

‘On some modern petrological methods,’ by J. J. H. Teall, M.A., F.G.S.

The publication of this paper is deferred.
